

### How to get to the Tytgat Center, (metro & 10 min. walk):

Take the metro line 54 direction Gein, get off at station Holendrecht. Leave the metrostation by walking into the direction the metro goes to. At the end of the stairs go right and take the footpath that turns left (to the south). Walk until a bridge to the right, take this bridge and then turn left. Walk through until you see the S-building at your left (new building with pillars). You have to ring the bell of the Tytgat to get entrance. Go to the second or third floor (S1 or S2) then ring the door again.
